GLOBAL *factories*

Bestway® is poised for sustainable, global growth. From wholly owning its 5 factories - 4 in mainland China and 1 (soon to be 2) in Vietnam - to actively reducing and reusing waste and focusing on production efficiency, Bestway's strategic focus on an end-to-end manufacturing and distribution process results in faster delivery, superior product quality and the highest levels of customer satisfaction.

With the addition of its state-of-the-art, 233,000 square meters manufacturing facility in Vietnam, Bestway is primed for exponential growth while providing tariff savings and manufacturing redundancy while enhancing global shipping and supply chain support for many years to come.

FORTIFIBER™ MATERIAL DROP STITCH

The FortiFiber™ walls are constructed using thousands of fine threads to securely connect the internal walls, seal in air, and provide lightweight rigidity that is similar to a hard-sided hot tub.

AIRJET™ MASSAGE SYSTEM

Soothe your body and relax your mind with the touch of a button! The Airjets work by releasing warm air into the water, surrounding you with a calming bubble massage.

FREEZE SHIELD® TECHNOLOGY

These hot tubs have built-in sensors so water temperature never falls below your comfort level. Freeze Shield automatically increases water circulation when temperatures are low to prevent inner parts from becoming damaged.

BESTWAY SMARTPHONE APP

This innovation makes the Lay-Z-Spa compatible with smart devices. The app lets users set their hot tub to the perfect temperature. They can also activate the Power-Saving Timer, the water filter, and the AirJet massage system with the touch of a button!
